passes

Lukas: Investopedia

Pete still winning, Jimmy in last place from shorting HMNY

Matthias: shorting presents additional risks- can lose over 100% of investment

WIC @ BAM: taking applications, due at next meeting, \$50 deposit required (will be returned upon completion of required paper)

Whitties helping Whities this weekend, SVB info session on Monday

Sawyer: stock update and "sexy stock of the week"

Portfolio up overall, markets up marginally, oil up significantly,

Naviant presents an interesting opportunity to profit off of student loans

Group discussion on FireEye:

Not growing organically, good at picking companies to buy and making those companies run more efficiently, ROA while negative is getting negative, good industry to get into, significant reputation/name risk,

No motion to buy
