WEDNESDAY'S MEETING

How do we evaluate the value/target price of a company? What is financial modeling? How does DCF work? If you are wondering about any of those questions, come to this week's meeting. Our CFO, Reily Wilken, is going to walk us through the whole process of building **Discounted Cash Flow Model(DCF)** and **Discounted Dividend Model (DDM)**. Please bring your own laptop if you want to follow through and have some hands-on experience.

IN OTHER NEWS,

Interested in making tangible impacts on the healthcare system? Check out this information session held by an Oxeon recruiter, along with Whitman alum (also former WIC member), Nishaant Limaye ('19). The session will take place on Friday, November 8th, from 12-1 PM in Reid 207. If interested, please RSVP using the Handshake link (<https://whitman.joinhandshake.com/events/393229>). For more information, please check the document attached in the email.

Please reach out to any of the board members if you are interested in participating in WIC presentations!
